**Consultant Contract - fully executed**

Committee, DOS, Alta introductions

Discussion about the importance and value of a Harbor Management Plan being part of the LWRP. Developing a plan would manage Germantown river usage. Area included is from the shore to the centerline of the river.

Discussion of river and street access titles to be reviewed by members of Alta team to ascertain availability and provided such information.

Changes to the land included in the LWRP was discussed with the primary focus being keeping the total land area approximately the same. Discussion on what could be excluded to prioritize what should be included to maximize LWRP protection of water access. Alta to review and revise for next meeting.

Committee/Consultant responsibilities reviewed and accepted. Details to be drawn up by Alta and circulated to Alta and Committee.
