Area Variance:

Paul Haas/Five Hares LLC appeared before the board seeking an Area Variance to convert an accessory structure used as home occupation into an accessory apartment on his property at 375 Viewmont Road. He explained that he purchased his property in 2017 and this structure already existed and was used for a home occupation, no permits were obtained, he has no plans to change the dwelling size and just seeks proper permits so that he may live at this location.

The board reviewed all documents submitted which included, letter of denial and referral for variance, SEAF, and accessory structure drawings of first and second floors. They noted that the drawings are of the structure which existed at the time of purchase and clarified that no changes to the size of the living space or structure are being requested.

The board has placed their review on hold and recommend that the applicant revisit the Building Department to discuss and apply for a Lot Line Adjustment.

There was no Public Hearing, Old Business or Other business.

On a motion by Rachel, seconded by Randy, with all in favor and none opposed, the meeting was adjourned at 7:30 p.m.
